Madeira Island has been recognized as the "World's Leading Island Destination" by the World Travel Awards for ten consecutive years. This distinction is awarded after voting by travelers from all over the world, reflecting the popularity and allure that Madeira holds. Madeira has consistently been voted the best island destination, standing out for its lush nature, outdoor activities, cultural identity and unique experiences.

This international recognition consolidates Madeira as a tourist destination of excellence, attracting visitors of all ages and interests.

In December, Madeira has mild and pleasant weather, with daytime temperatures around 18-23°C. Nights are cooler, around 14°C. Sea temperatures stay around 20°C, making swimming possible for some.

Overall, Madeira offers a warm and green winter escape compared to much of Europe.
